

सर्वे भवन्तु सुखिनः । सर्वे सन्तु निरामयाः ।
सर्वे भद्राणि पश्यन्तु । मा कश्चित् दुःख भाग्भवेत् ॥
ॐ शान्तिः शान्तिः शान्तिः ॥

Aum, may all be happy, may all be free from illness.
may all see what is auspicious, may no one suffer.
Aum peace, peace, peace.

The sacred syllable AUM symbolizes the boundless Brahmand (ultimate reality)
and the entirety of the universe:

- 'A' represents creation
- 'U' signifies preservation
- 'M' denotes destruction or dissolution

In India, we believe that 'Prayer is the first breath of God'. The royal concept was formulated by our revered Rishi-Munis (Holy saints) through potent shlokas and mantras. These sacred utterances instil positive energy and divine power into all seekers of health before commencing any treatment.

1st Triangle

The 1st Triangle symbolizes harmony among the three primary doshas: Vata, Pitta and Kapha, foundational in human constitution.

The Lotus Flower

The open lotus flower represents enlightenment and new beginnings.

The beautiful lotus blooms on the surface of stagnant muddy water and its roots strengthen deep as it's growing.

This also symbolizes our ability to transform great hurdles and negativity into positive energy.

2nd Triangle

The 2nd Triangle symbolizes the seat of intuition, inner wisdom. It is associated with heightened spiritual growth and the fulfilment of each person's potential.

Naturopedaa

शरीरेन्द्रियस्त्वात्मसंयोगो धारि जीवितम् । नित्यगश्चानुबन्धश्च पर्यायौशयुरुच्यते ॥

The body when combined with the sense organs, mind and soul, becomes life. The term "प्रकृती" translates to nature, while "चिकित्सा" signifies pathy. At Muktaa, we deeply embrace the principles of Naturopathy for fostering good health, enabling individuals to truly understand the essence of this non-medicinal approach and its significance in our lives. As inhabitants of nature, we believe in harnessing the healing powers of nature, which align with the elemental and cosmic principles encapsulated in the Panchamahabhutas.

तस्माद्वा एस्तामादात्मना आकाश, सम्भूतः आकाशद्व्यूह वायोरग्निह अग्निरापाह।
अध्दभयाह प्रथवी प्रथ्वीयम औषधयाः, बुधभ्योआसनम अनन्तपुरुषाहः ॥

Ancient wisdom teaches that life arises from the Atman and the five elements - space, air, fire, water, and earth. Our bodies are made of these, and Naturopathy restores balance to promote health and well-being.

स्वस्थस्य स्वास्थ्य रक्षणं, आतुरस्य विकार प्रशमनं च ।

Objective of Ayurveda is to prolong life, promote perfect health and to completely eradicate the disease and dysfunction of the body.

In a world increasingly enamoured with quick fixes and synthetic solutions, there stands an ancient system of healing that offers a sanctuary of balance, harmony, and holistic well-being.

The Sanskrit term, Ayurveda, meaning “knowledge of life,” transcends mere treatment; it embodies a profound philosophy of living. Rooted in the Vedic traditions of India, Ayurveda is not just a medicinal practice but a comprehensive approach to life that harmonizes body, mind, and spirit. Imagine a world where your well-being is not just an absence of illness, but a vibrant state of physical vitality, mental clarity, and spiritual peace. Ayurveda offers this possibility through a tapestry of time-honoured practices like personalized nutrition, herbal medicine, detoxification rituals, yoga, meditation, and mindful living. Each aspect is tailored to align with your unique constitution, empowering you to take charge of your health.

Naturoveda unites Ayurveda’s ancient healing wisdom with Naturopathy’s natural self-healing principles, offering a holistic, drug-free approach to wellness that restores balance and vitality.

At Muktaa, ancient wisdom meets contemporary living as we offer a sanctuary of balance, harmony, and holistic well-being. We recognize that the urban lifestyle demands flexibility and convenience. We at Muktaa Wellness remain steadfast in our commitment to the core principles of this ancient science.

योगेन चित्तस्य पदेन वाचां, मलं शरीरस्य च वैदकेन ।
योउपा करोत्तं प्रवरं मुनीनां, पतंजलि प्रांजलिरानतोस्मि

By yoga, the mind is spoken in steps.

The dirt of the body is also treated by the physician.

He removed the best of the best of the sages.

I bow down to Patanjali with folded hands.

Ozone Therapy

ओझोन थेरेपी (O₃)

Ozone therapy introduces ozone gas into the body to boost healing, enhance oxygen supply, and reduce oxidative stress. It improves circulation, modulates the immune system, and has antimicrobial effects, making it beneficial for treating infections, managing chronic pain, reducing inflammation, supporting detoxification, and promoting wound healing.

Ozone therapy can involve ozonated water or oils for topical wound care, injections for pain relief, autohemotherapy (ozone-treated blood reintroduced into the body), ozone insufflation into body cavities, or ozone saunas for skin absorption, offering various applications to enhance healing and reduce inflammation.

The therapy is often considered for those with chronic infections, autoimmune and cardiovascular diseases, skin disorders (Eczema, Psoriasis, acne), pain conditions (Arthritis, Back pain), slow-healing wounds (Diabetic Ulcers), chronic fatigue, and Fibromyalgia.

It is not recommended for certain individuals, including those who are pregnant, have severe Anaemia, G6PD deficiency, hyperthyroidism, bleeding disorders, or have recently experienced a heart attack, as it may worsen these conditions or pose additional risks.
